Bobby,

We can coordinate with Curyung Tribe to hold the meeting at a place convenient for everyone.

Kim

Rick,

Sounds like a plan and looking forward to meeting Lek Kadeli I assume Saturday the meeting will take place?

I am cc-ing the Tribal governments you have met with in the past in Ekwok so they will be aware.

If there is a schedule can you provide a copy? Thanks

Bobby

Hi Bobby, I have been out today. I was trying to reach someone about bringing EPA's Assistant Administrator for Research and Development to Dillingham to talk with you folks about mining issues in Bristol Bay. He is in charge of our science. I talked to Billy and have exchanged email messages with KIM. It looks like I will bring Lek Kadeli to Dillingham on Friday, the 10th. On Monday the 13th we will go to Pebble with John Shively and then meet with folks in Iliamna. I will see you in Anchorage next week.

About the Office of Research and Development (ORD)

What We Do

Science at EPA provides the foundation for credible decision-making to safeguard human health and ecosystems from environmental pollutants. The Office of Research and Development (ORD) is the scientific research arm of EPA, whose leading-edge research helps provide the solid underpinning of science and technology for the Agency.

ORD supports six research programs that identify the most pressing environmental health research needs with input from EPA offices, partners and stakeholders. Strategic Research Action Plans outline the research under way in the programs. The research is conducted by ORD's three national laboratories, four national centers, and two offices located in 14 facilities across the country and in Washington, DC.

About the Office of Research and Development

Lek Kadeli is the Acting Assistant Administrator in the U.S. Environmental Protection Agency's (EPA) Office of Research and Development (ORD). He has over 29 years of management experience in both government and the private sector, with broad experience in leading organizational change and improvement, policy development, resource management, information management and technology.

Mr. Kadeli began his EPA career in 1990 as an analyst in the Office of the Comptroller, and also served as the Senior Budget Officer in EPA's Office of International Activities. He moved to ORD in 1993 to serve as Chief of Resource Planning and Program Coordination, and in 1998 served as the Acting Deputy Director of ORD's National Exposure Research Laboratory in Research Triangle Park, North Carolina. He was the director of ORD's Office of Resources Management and Administration from 2001 to 2005 before becoming the Deputy Assistant Administrator for Management. He previously served as the Acting Assistant Administrator for the Office of Research and Development from January through December of 2009.

Mr. Kadeli received two of the Agency's highest awards for exemplary service: a Gold Medal for Distinguished Service, and the Lee Thomas Award for Excellence in Management.

Mr. Kadeli graduated from George Mason University in 1983 with a B.A. in International Relations. In 1986, he earned an M.A. in National Security Studies from Georgetown University.

Rick,

Left message on your office number this morning and you may be traveling to Anchorage.

I will be in Anchorage to attend the Peer Reviewer sessions as an observer and may see you there.

Bobby Andrew

NOTE NEW E-MAIL ADDRESS:

Ex. 6 PII

Rick,

Sorry I missed your phone call today. Busy day with a funeral service I attended at our church and didn't get home until after 6 p.m. Alaska time.

Per your message I will be very happy to work with you on your planned visit to Dillingham.

I will call you at 206-553-8574 first thing in the morning.

Bobby Andrew
